Hi Jeff,
We still haven't received meeting invites. I'm not sure what the issue is. But will you please resend those as soon as possible?
Thanks,
David

Hi David,

Meeting invitations were sent out yesterday afternoon for the 24 Jan phone call for the time period discussed at the meeting this week. Please let us know if you didn't receive...and please feel free to forward to anyone else you need to be there. As you know, time is getting tight so we really need to have this discussion. We are refining our notes and will put out minutes next week including the schedule for the next few months.

We will get with Rollic next week on the scarf once we check with our folks.

The meeting this week went very well. Thank you to you and the rest of the FWS team for their time and hospitality.

V/r,
JSP

Hi Jeff and Rich and all;

I haven't seen an invitation, a schedule, or an agenda for our Tuesday Jan 24 phone call. I had in my notes that Navy was going to send that out, but I could be mistaken. The only other thing I have is a very notional schedule that Mary wrote down that doesn't indicate a Tuesday Jan 24 call at all. Can one of you clarify our forthcoming meeting schedule?

I just want to make sure we know what the next steps are and are able to have the right folks engaged and available for future phone calls.

Also, A black scarf with fringes was left in the conference room. Rollic has in his possession. If you are missing a scarf let us know where you would like to have it sent.

Thanks again everyone for your engagement and for a very useful meeting this week.

David

Dave and others.

Can we meet at the same room tomorrow at 0900?

From our perspective, we would like to discuss the TuGu write up, butterfly host plants with Eric, and meet with Tony and others to recap a brief history of the consultation. We think all this will take no more than three hours.

Today went very well. Looking forward to more discussions tomorrow.

Let us know if this works for tomorrow.

All:

Here is another attempt at emailing our edge effect analyses and synthesis. I am sorry that the attachments did not come with my previous email for some of you.

All,

Please see attached read ahead documents consolidated into this email from the DON (prelim working draft BO comments, ISR Strike, Psychotria paper, Schedule - kept times the same, but we'll adjust as the discussion goes on).

One request for the FWS is status on the draft analysis on Tuberolabium guamense and the edge effect white paper. Please send NLT Friday afternoon so we may review over the weekend in prep for the meeting.

Thanks and we'll see you in Portland.

Hi Mary,

We are all staying at the Embassy Suites Downtown...and we will have one car for the 5-6 of us to share if necessary.

Looking forward to the discussion next week!

V/r,
Jeff

Richard -

Thank you for sending this out. My only comment is I think it might take more time to cover the items identified in the morning and hopefully less time is needed for the items in the afternoon. Otherwise I think it looks good and I appreciate you all and Steve getting things out ahead of time.

For dinner, it would help to know where folks are staying (downtown, Lloyd district, etc) to pick the easiest spot for people particularly given the possibility of inclement weather and some people will not have cars. So if you can let me know where you're staying I'll work with Rollie to identify a spot and make a reservation. It would also help to know if we have any particular food constraints or desires.

Thanks -

Mary
